

Angekis®

SABER LIGHT

FULL HD Conferencing Camera

Crystal clear in Full HD

We guarantee you won't find a better image for a camera in this price bracket. Delivery high end video quality well above its class via a premium multi-glass lens, the Saber delivers class leading optics.

Ultra Optix

Utilizing advanced imaging technology, Ultraoptix reduces 3D video noise. The result is a balanced image that renders the image with a clarity and sharpness that creates a more defined image.

10 Presets and more

Ensure a smooth conference by setting up 10 presets covering every person on the table. Presets can be controlled via the remote or via RS232 where you can set a huge 128 presets.

Powered by USB 3.0

Connect directly into a USB 3.0 input. 1 cable gives you video and power, the perfect solution to avoid an array of messy cables on the boardroom table and so easy to setup. Plug in 1 cable for instant video.

5x + 2x Zoom

5 x Optical + 2 x Digital zoom ensures you cover every detail in a small to medium sized conference room, with a completely lossless image ensuring crisp clear images with every frame.

Perfect your lighting

Weird backlighting, the room is dark, super bright lights washing out the image? Adjust the exposure, brightness, backlighting and more on screen all via the remote!

Plug n Play

Connects to your favourite video conference app, cloud service or audio system via USB. Simply plug the camera into your laptop, PC and Mac. No drivers needed.

NECC & FECC

The Angekis on screen app gives you full control of the camera via mouse or keyboard near end whilst far end controls are covered by Sony Visca via keyboard or joystick controls.

Best in Class

The Saber range has twice won Best in Class Video Conference Camera at the world's largest AV expo at Integrate. Out ranking other big brands such as Sony, Panasonic, Logitech and more.

3 Year Warranty

Feel secure knowing your investment is covered well and truly beyond the industry standard. That's how confident we are that you will love our products and that they will last!

Specifications

SABER LIGHT

- Power and Video via USB 3.0. **Only 1 CABLE needed!**
- 5x Optical Zoom + 2x Digital Zoom, 90° FOV with no distortion
- Sleek & Intelligent Design, Crystal Clear Image Quality
